- Your portal instance for pleiades-paros.gr is ready

Hosting4Life

Σήμερα στις 6:18 μ.μ.

Προς εμένα

Thanks you for your Liferay Portal Shared Mini instance order. We have setup your portal instance and will send your invoice shortly via Paypal it also contains the IBAN number for our bank account if you wish to pay via bank transfer.

Your Liferay Portal instance details:

Instance URL: <http://pleiades-paros.vm8.hosting4life.eu>

Admin username: admin@pleiades-paros.gr

Admin password: l1f3r4y

You can use your domain pleiades-paros.gr or any subdomain as virtual host for any site you create. The default site virtual host is set to pleiades-paros.vm8.hosting4life.eu. If you change it make sure you use either pleiades-paros.gr or a subdomain of it. Use of any other domain will result in the instance not being accessible any more. We recommend leaving the default site as is so that you can always access your portal instance. We have also made redirect from <http://pleiades-paros.gr> to <http://www.pleiades-paros.gr> because most of our clients want o have both with and without www point to the same site. Your main site should user virtual host www.pleiades-paros.gr. If you want your main site to be just pleiades-paros.gr and have www.pleiades-paros.gr redirect to it just let use know and we'll change it to work that way.

Since you chose to use our DNS please point your domain pleiades-paros.gr DNS to use our DNS servers ns1.hosting4life.eu and ns2.hosting4life.eu.

If you want to be able to receive email on the domain pleiades-paros.gr we have excellent email packages at <http://www.hosting4life.eu/hosting/email-services>.

You can find Liferay user guide from <http://www.liferay.com/documentation/liferay-portal/6.1/user-guide> and we have a blog post showing how to create a custom look and feel for your site on our shared portal environment <http://www.hosting4life.eu/blog/-/blogs/new-customizable-liferay-themes-installed>. You can also find few getting started videos from <http://www.liferay.com/getting-started>

If you have any questions don't hesitate to ask.

Sincerely,

Mika
